

# **TRUCK FRIENDLY PROGRAM**

**Free 'Truck Friendly' Vehicle sticker application.**

**NAME..... REG. NO.....**

**CONTACT DETAILS (Not compulsory).....**

- ✓ I have read and understand how I can assist truck drivers and other road users as recommended on the Truck Friendly program web site. [www.truckfriendly.com.au](http://www.truckfriendly.com.au)
- ✓ I agree to help all other road users including truck drivers wherever practical, without endangering lives. I will communicate in a friendly manner with other road users so as to help ensure a smooth flow of traffic on our highways and roads.
- ✓ I have a UHF radio installed in my vehicle and have it **'turned on'** and tuned to channel 40 or whichever is the preferred 'highway channel' at that location.

*Generally channel 40 is used however, some parts of the Pacific Highway may use channel 29 for highway safety information. It is recommended that the UHF channel and a vehicle / driver name be in large print on the rear of the caravan or RV for ease of identification when being called.*

- **By accepting the sticker and placing the sticker on your caravan or RV you agree to the above conditions of use.**
- **Should you not wish to comply with the above conditions or sell your vehicle, please remove the sticker so as not to upset other road users and cause frustration by noncompliance?**
- **A list of locations where you can collect your free sticker is available on the web site.**

The 300mm round sticker is to be placed in the upper half of the driver's side on the rear of the Caravan or RV so that all stickers are in a similar location on each vehicle to help ensure they are easily identified by any following vehicle from a distance. Please ensure the surface is clean before applying the sticker.

Please do not fold the sticker or it may become damaged.

***Thank you for helping make our highways safer and friendlier  
for all people no matter what vehicle they drive.***

**SIGNATURE .....**
